HOUSEHOLD APPLIANCES 2024

aiwa[®]
Japan est1951

Welcome to AIWA, an emblematic brand from Japan, synonymous with quality, tradition, and technological heritage since 1951. Our mission, under the mandate of Sony Corporation, is to lead as the flagship in home appliances, bringing excellence and innovation to every home. At AIWA, we merge Japanese precision with technological forefront to create products that not only enrich everyday life but also continue a legacy of superiority and trust.

Every AIWA product reflects our commitment to perfection, attention to detail, and customer satisfaction, establishing us as a premium brand in the global market. We pride ourselves on being carriers of Japanese excellence, dedicated to exceeding expectations and paving the way to the future of home appliance technology. With AIWA, discover an experience where tradition meets innovation to deliver unparalleled quality.

Welcome to the future, welcome to AIWA.

OUR HISTORY

Welcome to AIWA, an emblematic brand from Japan, synonymous with quality, tradition, and technological heritage since 1951.

THE GENESIS OF EXCELLENCE

In the bustling heart of Tokyo, AIWA was born, a beacon of innovation destined to revolutionize audio technology. From day one, our commitment to quality set us on a path to lead and redefine the industry.

1951

TRAILBLAZING AUDIO INNOVATION

AIWA introduces Japan's first domestically produced reel-to-reel tape recorder, marking the dawn of a new era in high-fidelity sound. Our pioneering spirit cements our reputation as architects of exceptional audio experiences

1960

Our Horizon

AIWA is at the forefront of innovation, dedicated to quality and excellence. As the flagship brand for home appliance development, we push technological boundaries to enhance everyday life.

Expanding into smart home devices and beyond, we leverage advanced technology and strategic insights to create intuitive and indispensable products. Our commitment to innovation and user experience is setting new industry standards.

Looking ahead, our goal is to become a global household name, synonymous with quality and trust. We aim to enrich consumers' lives with exceptional products, ensuring AIWA remains a beacon of excellence for generations to come.

2020

PIONEERING THE HOME APPLIANCES SECTOR

AIWA's expansion into home appliances marks a significant evolution. Our mission to lead in innovation and quality is now broader, touching every corner of the home with AIWA's signature excellence.

2002

A STRATEGIC ALLIANCE WITH SONY

The acquisition by Sony Corporation wasn't just a milestone; it was a testament to AIWA's value and potential. Together, we embarked on a journey of synergistic innovation, backed by Sony's belief in AIWA's legacy and future.

1990

DIVERSE INNOVATION

Our expansion into video, car audio, and multimedia solutions wasn't just growth—it was a declaration. AIWA was more than an audio company; we were a lifestyle brand, enhancing every aspect of our consumers' lives.

1970

Unleashing Music Mobility

With the launch of portable cassette players, AIWA didn't just follow trends—we set them. We transformed music into a companion that traveled with you, anywhere, anytime, solidifying our role as innovators of music on the move.

1980

THE DIGITAL REVOLUTION

As the digital age dawned, AIWA was at the forefront, embracing the future with our cutting-edge CD players and stereo systems. Our global acclaim was not just for the technology we created but for the experiences we made possible.

KENKIRI SERIES

CRAFTED WITH PRECISION, OUR AIWA KENKIRI BLENDERS REFLECT THE ZENITH OF JAPANESE ENGINEERING & QUALITY HIGH STANDARDS.

Experience the zenith of blending technology with Aiwa's Kenkiri series, where potent performance, superior materials, and meticulous Japanese craftsmanship converge to redefine kitchen convenience.

Potent Performance: At the heart of each Kenkiri blender lies a robust motor, ranging from 600W to a formidable 2000W, designed for both endurance and efficiency. The power spectrum across the series ensures a match for every culinary challenge, from light mixtures to dense ingredients.

Exquisite Material Quality: Precision-engineered with premium-grade stainless steel, the Satoku® Kenkiri series boasts unparalleled durability. The motors, forged for longevity, and the titanium razor-sharp blades, honed for precision cutting, stand testament to the blend of technology and toughness.

Sophisticated Design: The Kenkiri line embodies sleek aesthetics with ergonomic considerations, presenting a range of hand blenders that are as pleasing to the eye as they are comfortable in the grip. The seamless integration of components assures ease of use, coupled with a clean, modern silhouette that complements any kitchen decor.

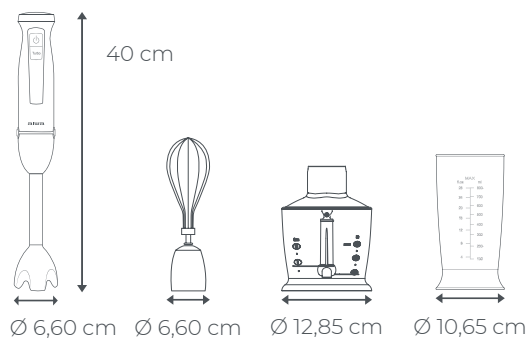

Japanese Control of Quality: Adhering to strict Japanese quality standards, each Kenkiri blender undergoes rigorous testing to guarantee reliability. This unwavering attention to detail ensures that every product not only meets but exceeds the expectations set by culinary enthusiasts.

SABERU SERIES

ENGINEERED WITH PRECISION HARNESSING THE PINNACLE OF AIWA'S DEDICATION TO EXCELLENCE, THE SABERU BLENDERS EPITOMIZE JAPANESE ENGINEERING AND QUALITY, A SERIES WHERE CUTTING-EDGE TECHNOLOGY MEETS MINIMALIST DESIGN.

Elevate your blending with the SABERU series by Aiwa, where innovative design, patented precision, and superior Japanese craftsmanship unite to transform your kitchen experience

Variable Power for Any Task: From the 550W personal blender to the mighty 2500W table blender, the SABERU series offers a range of power options to suit every preparation need with the ease and efficiency Aiwa is known for.

Premium Material Construction: The SABERU blenders are built with the highest quality materials, from the BPA-free Tritan® jars that guarantee safety and durability to the high-resistance glass options, ensuring a product that lasts.

SATOKU Blade Excellence: With Aiwa's patented Satoku® blades, these blenders deliver unparalleled cutting precision, giving you consistently fine results and a smooth blend, regardless of the ingredients.

Intuitive Controls: Simplify your blending with user-friendly programmes, from a single setting for straightforward tasks to multiple options and pulse controls for complex recipes.

Japanese Aesthetics and Durability: Each SABERU blender is a masterpiece of minimalist design, blending effortlessly into any kitchen environment with the promise of enduring performance.

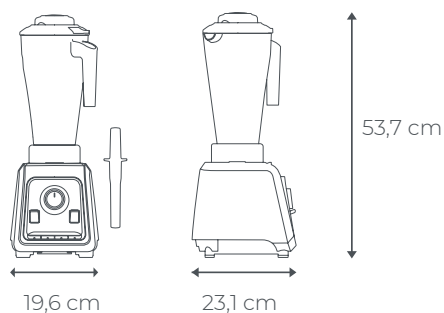

Quality Without Compromise: True to Aiwa's legacy, the SABERU series is subjected to rigorous quality checks, ensuring every appliance exceeds the high expectations synonymous with Japanese-made products.

AIRFRIER SERIES

INNOVATING HEALTHIER LIFESTYLES

Transform Your Cooking with AIWA Air Fryers

Delve into the world of gourmet, guilt-free cuisine with AIWA's Air Fryer Series. Where convenience meets health, this series promises to revolutionize your cooking experience, offering a smarter, faster, and healthier way to savor your favorite dishes.

Powerful Performance Across the Board: From the compact 1500W models to the formidable 2400W FUTAGO, AIWA air fryers cater to all culinary demands, combining high efficiency with powerful performance.

Robust Build with Refined Materials: The series boasts a range of materials from durable stainless steel to high-quality plastic, ensuring each air fryer is not only an aesthetic statement but also a testament to lasting durability.

Customizable Cooking with Pre-set Programs: Whether you're cooking for one or prepping for a party, the versatile pre-set programs across the AIWA series offer precision at the touch of a button, accommodating an array of cooking styles and preferences.

Exclusive Features Enhance Every Model: With characteristics like autoclean systems, double windows for cooking visibility, and super silence systems, each air fryer is designed to enhance user experience and functionality.

Design Excellence with Functionality:

Embodying the sleek, functional ethos of Japanese design, AIWA air fryers fit seamlessly into any modern kitchen, offering intuitive digital controls for effortless cooking.

Unwavering Commitment to Health and Quality:

Each air fryer in the AIWA series is a hallmark of the brand's unwavering commitment to healthier cooking, reducing oil usage by 95% without compromising on taste or quality.

Embark on a culinary journey with the AIWA

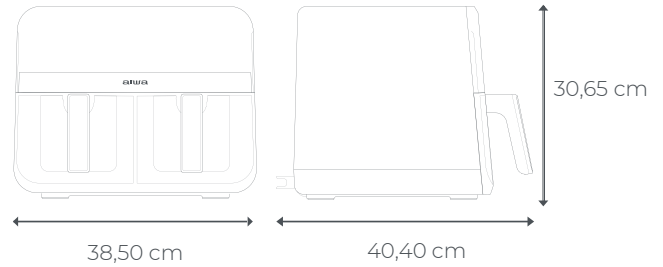

Air Fryer Series and discover the art of crafting delicious, healthy food that's as easy to make as it is satisfying to eat. Each air fryer is meticulously checked to surpass the high standards synonymous with Japanese craftsmanship, bringing you the perfect combination of style, innovation, and practicality.

MIZUSUI PRO

WET & DRY VACUUM CLEANER AFC-800

INTRODUCING THE W&D MIZUSUI PRO: THE ULTIMATE HOME CLEANING SOLUTION

The W&D Mizusui Pro is the pinnacle of vacuum technology, designed to provide a comprehensive and effortless cleaning experience. This innovative Wet & Dry vacuum effortlessly handles both dry debris and liquids, and it comes equipped with a range of advanced features and multiple attachments, making any cleaning task a breeze.

Technical Specifications:

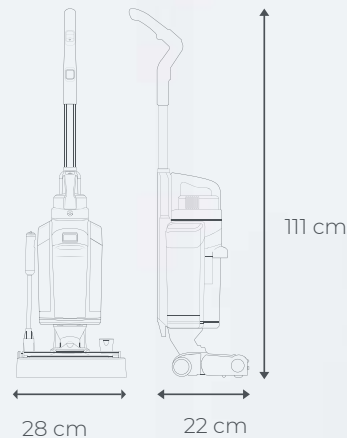

- **Suction Power:** With 11Kpa of suction strength, the W&D Mizusui Pro delivers a deep clean on any surface, from hard floors to thick carpets and upholstery.
- **Long-Lasting Battery:** Enjoy up to 60 minutes of continuous operation on a single charge, and 40 minutes at maximum power, allowing you to cover larger areas without interruptions.
- **Power:** 160W of intense suction, perfect for tackling tough stains and stubborn debris.
- **Tanks:** Featuring a 500 ml clean water tank and a 380 ml dirty water tank, the W&D Mizusui Pro ensures you can perform extended cleaning sessions without frequent emptying or refilling.
- **Self-Cleaning Technology:** Forget about the hassle of maintenance; the W&D Mizusui Pro includes a self-cleaning system in its charging base, ensuring it's always ready for the next session.

Unmatched Versatility:

The **W&D Mizusui Pro** is more than just a standard vacuum; its versatility is what sets it apart:

- **Attachments for Every Need:** It comes with a wide range of attachments, including a glass cleaner, a Spot Cleaner attachment for carpets and tough stains, and multi-purpose brushes that adapt to different surfaces, including hard-to-reach corners and crevices.
- **Fabric Functionality:** Equipped with specialized brushes that easily remove fabric stains, making cleaning sofas, curtains, and other textiles quick and effective.
- **Compact and Portable Accessories:** Includes a compact bag to carry all accessories, ensuring you always have the right tool at hand.
- **User-Friendly and Ergonomic Design:** Lightweight and easy to maneuver, the W&D Mizusui Pro is designed to make cleaning a simple and effortless task.

UNRIVALED CLEANING PERFORMANCE

Unmatched Suction Power: With an impressive 800W motor and 32Kpa suction, the AIWA EVO 7 delivers the strongest cleaning performance in its class, effortlessly removing dirt and debris from all surfaces.

Advanced Filtration: Featuring a HEPA and stainless steel filter, it captures even the finest dust particles and allergens, ensuring cleaner air and a healthier home environment.

Extended Runtime: The powerful 29.6V battery provides up to 80 minutes of continuous cleaning, ideal for large spaces and extended cleaning sessions.

Automatic Dust Emptying Station: Our innovative station automatically empties the dust tank, ensuring a hands-free and hygienic cleaning experience without the need to touch the dust.

Versatile Accessories: The vacuum comes with a motorized roller with LED illumination for hard floors and carpets, a self-standing electric brush, and a range of nozzles for versatile cleaning solutions.

Innovative Design: Combining cutting-edge technology with sleek Japanese aesthetics, the AIWA EVO 7 embodies quality and precision, delivering exceptional performance and durability.

The AIWA EVO 7 Stick Vacuum Cleaner with Auto-Empty Station is designed to bring the best of Japanese innovation and practicality into your home, making cleaning a breeze and leaving your living space spotless and fresh.

PURIFIERS PA-200

- **Compact Design:** Our air purifier boasts a sleek and compact design, making it a perfect fit for any space, whether it's a small bedroom or a large living room.
- **Advanced HEPA H13 Filtration:** Equipped with a high-efficiency particulate absorbing (HEPA) H13 filter, our purifier provides 99.95% filtration, effectively capturing even the tiniest 0.3-micron dust particles for cleaner, fresher air.
- **Enhanced Efficiency:** With an integrated ionizer and microfiber pre-filter, our purifier enhances filtration efficiency, ensuring that your indoor air is free from pollutants, allergens, and odors.
- **Quiet Operation:** Enjoy peace and tranquility with our purifier's ultra-quiet operation, emitting only 50dB at maximum fan speed, so you can breathe easier without any disruptive noise.
- **User-Friendly Features:** From timer functions to child lock safety features, our purifier offers user-friendly operation. With 360° air intake vents, sleep mode with reduced LED lighting, and automatic fan speed adjustment based on air quality, it's designed for convenience and ease of use.

PURIFIERS PA-100

- **Compact:** Air Purifier with ionizer.
- **HEPA H13 Filter:** achieving 99.95% filtration for 0.3-micron dust particles.
- **Enhanced Efficiency:** Integrated Ionizer and Pre-Filter
- **Operation:** Ultra-quiet operation at 50dB, featuring 3-speed fan control and CADR of 140 m³/hour, suitable for rooms up to 16.8 m².
- **User-Friendly Operation:** User-friendly touch control panel, timer function, ambient blue nightlight, and user-replaceable HEPA filter with indicator reminder light.

OUR ELEGANT, HIGH-EFFICIENCY PURIFIER

In a world where air quality is crucial, our purifier blends elegant design with advanced filtration, ensuring 99.95% purification with its HEPA H13 filter and integrated ionizer. Its quiet operation and intuitive controls make it ideal for any space, offering peace of mind and freshness.

Designed with convenience and longevity in mind, it features user-friendly touch controls, a timer function with automatic power off, and a replaceable HEPA filter with indicator reminder light for optimal performance. With a heavy-duty AC motor and internal power supply, it's built to last, while its compact dimensions of 21 x 21 x 31.7 cm and weight of 2.9 kg make it suitable for various spaces.

MIZUAIR 20
DEHUMIDIFIER DEF-LI20L

- **High Performance:** Dehumidifies up to 20L per day under high humidity conditions and 14L under moderate conditions.
- **Energy Efficiency:** Consumes only 270W of power.
- **Advanced Features:** 0-24 hour timer, 4L water tank, and 4 speed settings.
- **Silent and Portable:** <45dB noise level and 15kg weight.

INTRODUCING OUR HIGH-PERFORMANCE DEHUMIDIFIER

Control the humidity in your home effectively and quietly with our high-performance dehumidifier. With a dehumidifying capacity of up to 20 liters per day, this device ensures a comfortable and healthy environment, even in high humidity conditions. Its energy-efficient design consumes only 270W of power, resulting in savings on your electricity bill without sacrificing performance.

Additionally, with advanced features such as a programmable timer from 0 to 24 hours, a 4-liter water tank, and four speed settings, you'll have complete control over your surroundings. And thanks to its silent operation, with a noise level of less than 45dB, you can enjoy peace of mind at any time of day or night.

MIZUAIR 12

DEHUMIDIFIER DEF-VI12L

- **Versatile and Effective:** Dehumidifies up to 12L per day under high humidity conditions and 6.9L under moderate conditions.
- **Energy Efficient:** Consumes only 158W of power.
- **Convenient Programming:** Adjustable timer of 2, 4, or 8 hours to suit your needs.
- **Silent and Portable:** <43dB noise level and 11kg weight.

EFFORTLESS HUMIDITY CONTROL: INTRODUCING OUR EFFICIENT DEHUMIDIFIER

Take charge of your indoor comfort with ease using our efficient dehumidifier. Designed to tackle moisture in your home, this versatile appliance extracts up to 12 liters of water per day under high humidity conditions, ensuring a dry and comfortable environment for you and your family. With its energy-efficient operation consuming only 158W of power, you can enjoy optimal performance without worrying about hefty electricity bills. Plus, the convenient programmable timer allows you to customize its operation to fit your schedule, providing added convenience and flexibility.

Enjoy peace of mind knowing that our dehumidifier operates quietly with a noise level of less than 43dB, making it perfect for bedrooms, offices, and any other space where tranquility is valued. Don't let humidity control your comfort – invest in our efficient dehumidifier today and create a healthier living environment for yourself and your loved ones.

HARUAIR SERIES

THE ESSENCE OF SPRING

PRECISION COOLING AND HEATING FOR EVERY SEASON

Experience the perfect blend of efficiency and comfort with the Haruair Series. Engineered with advanced Japanese technology, these air conditioners provide exceptional energy efficiency, ensuring lower utility bills without compromising performance. The Haruair Series is designed to operate quietly, making it ideal for bedrooms, study rooms, and offices. With a compact design that seamlessly integrates into any space, and smart features like WiFi control and Turbo Cooling, the Haruair Series offers reliable, year-round comfort. Elevate your living environment with superior air quality, thanks to HEPA and stainless steel filtration systems, and enjoy a peaceful atmosphere with low noise levels and wide operating limits.

HARU AIR SERIES

94

FUNCTIONS

Turbo Cooling: Provides rapid cooling to quickly lower room temperature, ideal for hot summer days.

WiFi Control: Manage your AC unit from anywhere using a smartphone app, offering convenience and flexibility.

+8°C Heating: Keeps rooms warm during cold weather by maintaining a minimal heating temperature.

Sleep Mode: Adjusts settings to create a comfortable sleeping environment, promoting better sleep quality.

Wide Voltage Operation: Ensures reliable performance in areas with unstable voltage, protecting the unit and maintaining efficiency.

HIGHLIGHTS

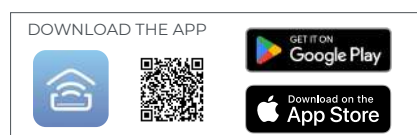

Energy Efficiency: High SEER/EER ratings for cost-effective cooling and heating, making it an eco-friendly choice that reduces energy bills.

Quiet Operation: Low noise levels ensure a peaceful environment, perfect for bedrooms, study rooms, and offices.

Wide Operating Limits: Performs efficiently across a broad range of temperatures, providing reliable comfort in all seasons.

Advanced Filtration: HEPA and stainless steel filters improve indoor air quality by removing dust, allergens, and other pollutants.

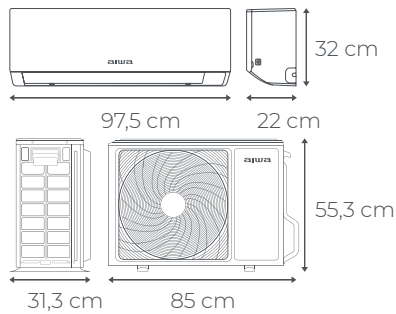

Smart Features: Includes WiFi control for remote operation and Turbo Cooling for rapid temperature adjustments.

FUJINAIR SERIES

THE SOVEREIGN OF AIR PURITY

EXPERIENCE SUPERIOR AIRFLOW AND COMFORT WITH THE FUJINAIR SERIES

Step into a world of enhanced comfort with the Fujinair Series, where advanced airflow technology meets robust durability. These air conditioners are built to last, featuring anti-corrosive materials that withstand the harshest conditions. The Fujinair Series offers strong, uniform cooling and heating, eliminating hot and cold spots for consistent comfort throughout your space. With smart features like Auto Mode, which adjusts settings based on ambient conditions, and the innovative 3D Airflow system that ensures even air distribution, the Fujinair Series provides a seamless and eco-friendly cooling solution. Ideal for various room sizes, these units combine triple filtration technology to deliver cleaner, healthier air.

FUJINAIR SERIES

100

FUNCTIONS

Triple Filter Tech: Combines multiple filtration systems to enhance air purity, capturing dust, pollen, and other airborne particles.

Auto Mode: Automatically adjusts cooling or heating settings based on current room conditions, ensuring consistent comfort with minimal effort.

Anti-Corrosion: Special coating protects the unit from rust and corrosion, extending its durability and reducing maintenance needs.

Wide Voltage Operation: Maintains stable operation even with fluctuating voltage, ensuring reliable performance and protecting the unit.

Sleep Mode: Enhances nighttime comfort by adjusting temperature and airflow to promote better sleep.

3D Airflow: Synchronizes horizontal and vertical deflectors to evenly distribute air throughout the room, enhancing comfort and efficiency.

HIGHLIGHTS

Enhanced Airflow: Strong airflow system ensures uniform cooling and heating, eliminating hot or cold spots and enhancing overall comfort.

Durable Build: Constructed with anti-corrosive materials, these units are built to last, reducing maintenance costs and extending the lifespan of the AC unit.

Smart Operation: Features like Auto Mode and integrated structure simplify operation by automatically adjusting settings based on ambient conditions.

Eco-Friendly: Utilizes energy-efficient components and refrigerants, minimizing its ecological footprint while maximizing performance.

Comprehensive Filtration: Triple filter technology removes more impurities from the air, enhancing indoor air quality.

3D Airflow: Delivers air vertically and horizontally, ensuring even distribution throughout the room for comprehensive cooling and heating coverage.

SUIJINAIR SERIES

THE MASTER OF ELEMENTAL COMFORT

UNVEIL THE PINNACLE OF AIR PURIFICATION AND EFFICIENCY
WITH THE SUIJINAIR SERIES

The SuijinAir Series represents the epitome of innovation and efficiency in air conditioning. Designed with advanced Japanese engineering, these units boast superior SEER/EER ratings for remarkable energy savings. The SuijinAir Series operates quietly, creating a serene environment perfect for both residential and commercial spaces. Featuring cutting-edge technologies like +8°C heating for cold climates and Turbo Cooling for immediate relief on hot days, these air conditioners ensure optimal comfort. The standout feature, Aqua Sterilization, uses ionization to purify the air, making it healthier and cleaner. Compact and stylish, the SuijinAir Series fits seamlessly into any décor, providing robust filtration and smart control via WiFi for ultimate convenience.

R

SUIJIN AIR SERIES

106

FUNCTIONS

+8°C Heating: Maintains a low heat setting to prevent freezing, making it suitable for colder climates.

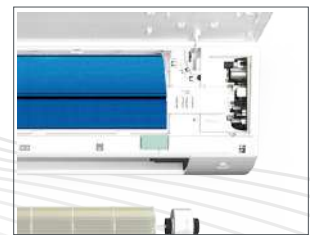

Turbo Cooling: Rapidly reduces room temperature for immediate comfort, perfect for hot summer days.

Self Clean: An automatic cleaning function that ensures the unit remains efficient and hygienic by reducing dust and moisture build-up.

Anti-Corrosion: Protects the unit from rust and corrosion, enhancing durability and longevity.

Smart Control: Features WiFi control for remote operation, allowing you to adjust settings from anywhere using your smartphone.

Aqua Sterilization: Uses advanced ionization technology to sterilize the air, removing harmful particles and improving overall air quality. better sleep.

HIGHLIGHTS

High Efficiency: Superior SEER/EER ratings offer exceptional energy savings without compromising performance, making it a cost-effective choice for both home and office use.

Quiet Performance: Operates at minimal noise levels, creating a tranquil environment ideal for living rooms, bedrooms, and offices.

Innovative Features: Equipped with advanced technology like +8°C heating and Turbo Cooling, providing rapid temperature adjustments and efficient heating solutions.

Compact and Stylish: Modern design complements any interior décor, making these units both aesthetically pleasing and space-efficient.

Robust Filtration: Dual filtration systems enhance air quality by effectively removing dust, allergens, and other pollutants.

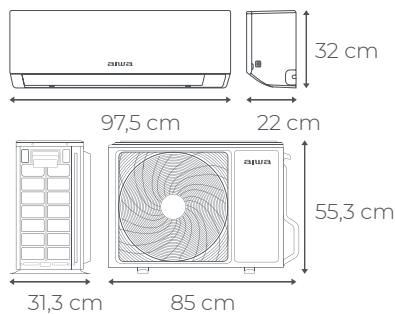

Aqua Sterilization: Uses ionization to sterilize the air, providing a healthier and cleaner indoor environment by removing harmful particles.

FUNCTIONS	INTRODUCTION	
TOSEI AQUA Sterilization	Ionizes the air and releases positive and negative ions to sterilize the air with efficiency up to 97.5%.	
Triple filter tech	Utilizes mixed powerful filter plus electronic filter, combining to prevent the air conditioner from harmful micro-particles including dust, virus and bacteria	
Anti-Corrosion	Helps condensate flow smoothly via its hydrophilic and anti-corrosive properties.	
Self Clean	Freezes the evaporator with moisture in the air, and then removes away dirt in melting, ensuring clean air out of the air conditioner.	
WiFi Control	Download the Tuya Intelligent Air App to an Apple or Android smart device, and link the equipment to the smart device for system control from whenever and wherever you want.	
A-PAM Control	Automatically adjusts DC bus voltage in accordance with the compressor load to increase operation voltage range.	
PID Control	Maximizes the working frequency before reaching the desired temperature, and, after that, constantly makes real-time adjustments to match room air temperature with the desired temperature.	
Turbo Cooling	The special control program allows the motor to work at a higher frequency. It enables users to enjoy a cool room within a much shorter time.	
Long Distance Airflow	The indoor unit get improved with better motor, optimized fan and air duct. It enables the air conditioner blows air as long as 20m.	
Strong Airflow	With improved fan and air duct, the air conditioner supplies up to 25% more air volume than the conventional.	
Warm Start	Blows no cold air when the unit is starting to work at heating mode, or change from cooling mode to heating mode.	
-15°C Heating	Provides powerful heating performance in cold winter with rotary compressor, etc.	
-10°C Cooling	Works at low ambient temperature with high frequency rotary compressor, optimized refrigerant system and special defrosting programme, etc.	
DC Motor	Ensures reliable operation with much higher energy saving and lower operation sound.	
DC Compressor	Reduces energy loss and maximize power input to achieve much higher energy efficiency.	
Smart Defrosting	Works only when necessary to reduce energy waste, and provide better experience by reducing defrosting time.	
Indoor 5-step Fan Speed	Works at powerful/high/middle/low/quiet speed to give users more choices in airflow control.	
Auto Vertical Airflow	Moves vertically and works with horizontal flaps to achieve various air angle.	
3-minute Protection	Helps compressor avoid unexpected damages to have longer life.	
Auto Restart	Returns operation to previous air conditioner settings after a sudden power break.	
Wide Voltage Operation	Enable interver AC to start working from 150V-264V	
89 Display	Shows clearly the real-time room temperature or desired temperature on the panel.	
Auto Mode	Helps air conditioner choose cooling or heating automatically based on desired temperature and ambient temperature.	
Integrated Structure	Combines the bottom base, drain pan and frame casing together to level up product reliability and lower vibration.	
Low Watt Standby	Lowers stand-by power consumption from 8W to about 1W by optimizing control programme.	
Outdoor 7-step Fan Speed	Makes adjustments according to the control of ambient sensor and tubing sensor to optimize heat exchange performance and improve energy efficiency.	
Coanda Plus Airflow	Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.	
Whispering Air	Ensures your peace of mind with optimized fan, air duct and motor.	
Dry Function	Adjusts fan speed automatically according to room air temperature to achieve either mild dehumidification or strong dehumidification.	
3D Airflow	Delivers comfortable airflow to every corner of your room with the constant horizontal and vertical movements of airflow blades.	
Intelligent Air	Directs the airflow upwards at cooling mode, and downwards at heating mode to provide better air conditioning performance.	
Sleep Mode	Provides maximum comfort and energy saving during your good night's sleep.	
Positioning Specifications	Help fix the mounting plate and hang air conditioner at proper position.	
Extended Kickstand	Makes the installation easy with larger operation area to install and service.	
Easy Access Control Board	Simplifies dismounting and maintenance without disassembling casing.	
Wider Tubing Space	Saves installation time with larger operation space for piping and wiring.	
Easy Access Fan Motor	Simplifies dismounting and maintenance without disassembling evaporator.	
Self-diagnosis	Shows the error code on the LED display of the indoor unit to make the maintenance easier.

GLOSSARY OF ICONS

 1500W	POWER	 Filter Removable	FILTER REMOVABLE	 Antislip rubber foot	ANTISLIP RUBBER FOOT
 5L	CAPACITY IN LITERS	 180° Opening	OPENING 180°	 Cool touch handle	COOL TOUCH HANDLE
 Digital display	DIGITAL DISPLAY	 Detachable Drip Tray	DETACHABLE DRIP TRAY	 25 Speed Control	NUMBER OF SPEED CONTROL
 8 Presets	NUMBER OF PRESETS	 A+++	TYPE OF ENERGY	 DUAL resistance	TITANIUM COATING
 80° - 200°C	TEMPERATURE	 Self Cleaning Air ACONDICIONER	SELF CLEANING AIR ACONDICIONER	 22,5 cm Stainless steel foot	LONG STAINLESS STEEL FOOT
 Dishwasher safe	USE IN DISHWASHER	 3D Air Flow	3D AIR FLOW	 H10 Hepa Filter	FILTER TYPE
 1-6	NUMER OF POSITIONS	 Whispering Air	WHISPERING AIR	 Cordless	CORDLESS
 Number of slots	NUMBER OF SLOTS	 Anti-corrosion	ANTI-CORROSION	 2500 mAh 11.1 V Battery	BATTERY TYPE
 Defrost function toasters	DEFROST FUNCTION TOASTERS	 Number of decibels db	NUMBER OF DECIBELS	 Light type UVC light	LIGHT TYPE
 Crumbs collection tray	CRUMBS COLLECTION TRAY	 Remotecontrol	REMOTECONTROL	 Motorized Brush	BRUSH TYPE
 Heater function	HEATER FUNCTION	 WiFi control	WIFI CONTROL	 3 Accessories	NUMBER OF ACCESSORIES
 Digital control	DIGITAL CONTROL	 9000 BTU	BRITISH THERMAL UNIT	 4m Power Cord	LENGTH OF THE POWER CORD IN METERS
 Overheat Protection	OVERHEAT PROTECTION	 Heating DAC-30000PH	HEATING	 1.5L Clean water	CAPACITY OF THE CLEAN WATER TANK
 Boil dry Protection	BOIL DRY PROTECTION	 Automatic Control	AUTOMATIC CONTROL OF TEMPERATURE	 1.5L Dirty water	CAPACITY OF THE DIRTY WATER TANK
 stainless steel	STAINLESS STEEL MATERIAL	 3 in 1	3 INTERCHANGEABLE PLATES	 Viewing Window	VISIBLE WINDOW
 Cooking Light	LIGHT FOR VIEWING COOKING	 5 Levels POWER	LEVELS OF POWER	 FLEX Tube	FLEX TUBE
 Anti SPLASH	ANTI SPLASH SYSTEM	 Steel Grill Included	MICROWAVE ACCESSORY	 0.4L Dust Tank Capacity	DUST TANK CAPACITY

 PULSE switch	SPECIAL FUNCTION	 Child Lock	CHILD LOCK	 Telescopic Tube	TELESCOPIC TUBE
 TURBO Function	SPECIAL FUNCTION	 60 min Timer	TIMER MINUTES	 80 minutes Running Time	RUNNING TIME
 270° Viewing Window	SPECIAL VISION	 19:51 Digital Clock	TYPE OF CLOCK	 SUPER Quiet System®	SUPER QUIET SYSTEM
 Defrost	DEFROST FUNCTION AIR FRIER	 Express Cooking	ESTIMATED COOKING TIME	 SYNCRON Function	SYNCRONITATED FUNTION
 Autoclean	AUTO CLEAN FUNCTION	 Replaceable Filter	EASY FILTER CHANGE	 Dual Cooking	DUAL COOKING
 2 Cones	NUMBER OF THE CONES OF CITRUS JUICERS	 24H Timer	TIMER 24 HOURS	 GLASS Bowl	TYPRE OF MATERIAL
 Stainless Steel Cone	MATERIAL OF THE CONES OF CITRUS JUICERS	 2-4-8 HOURS Timer	TIMER 2-4-8 HOURS	 TURBO Function	TURBO FUNCTION
 Stainless Steel Filter	MATERIAL OF THE FILTERS OF CITRUS JUICERS	 4L Water Tank	LITERS OF WATER TANK	 Anti fingerprint	ANTI FINGERPRINT
 Anti - Drip	ANTI-DRIP SYSTEM	 40 minutes Running Time	TIME OF RUNNING		COMPLEMENTARY ACCESSORY
 Timer	TIMER FUNCTION	 MULTI Surface application	SURFACE APPLICATION		COMPLEMENTARY ACCESSORY
 Alarm Notification	ALARM FUNCTION	 HYBRID Cleaning System	SYSTEM OF CLEANNING	 Titanium	TITANIUM BLADES
 25.5 cm Glass Plate	TYPE OF DISH AND MEASUREMENT	 Ultra Fast Charging	ULTRA FAST CHARGING	 8 Satoku® Blades	QUANTITY OF SATOKU BLADES
 EASY To Clean	CLEANNING	 Hepa Filter	FILTER TYPE	 GLASS Jar	GLASS JAR
 25.5 cm Glass Plate	TYPE OF DISH AND MEASUREMENT	 Ultra Fast Charging	ULTRA FAST CHARGING		
 EASY To Clean	CLEANNING	 Hepa Filter	FILTER TYPE		
 TURBO Cooling	TURBO COOLING	 Nano-Aqua Sterilization	NANO-AQUA STERELIZATION		
 SMART Defrosting	SMART DEFROSTING	 AIRFLOW distance	AIR FLOW DISTANCE
